

Allatoona School Counseling Program
Mission Statement

The mission of the Allatoona's school counseling program is to guide all students toward the successful development of life-long learning, personal responsibility and productivity in collaboration with students, faculty members, parents and community.

Allatoona High School Counseling Program
Philosophy Statement

The Counselors at Allatoona High School Believe:

Every student can learn and achieve through different models and at different rates
Every student deserves an equal opportunity to educational and counseling resources
Every student will be treated with dignity and respect
Every student will have access to a uniquely qualified professional school counselor who will identify, address and advocate for their developmental needs and help to remove barriers

And that the Allatoona Comprehensive School Counseling Program should:

Have specific program goals and student competency indicators
Identify and address the needs of students in a proactive manner
Use data to develop, monitor and evaluate the effectiveness of the program and re-assess as necessary
Be evaluated by the counseling department's administrator and their advisory council
Be planned, delivered and managed by the professional school counseling team in collaboration with our stakeholders
Be based on the ethical guidelines as well as the areas of academic, career and personal/social standards established by the American School Counselor Association
Utilize all available school and community resources to meet the needs of our students
Consider the developmental needs of our parents and community as well

And that all professional school counselors at Allatoona High School will:

Adhere to ethical standards as set forth by the American School Counselor Association
Participate in professional developmental activities necessary to maintain a quality school counseling program.
