At Home Suggestions

Technology is in all we do, but finding balance is key. These helpful tips will support you at home. Remember, not all screen time is the same. 30 minutes of Moby Max is not the same at 30 minutes watching YouTube.

Be a role model – Use technology the way you want your child to.
Establish rules and set boundaries – Develop rules together, so your child feels ownership, set screen-time limits, make a no-screen time, check for age appropriate apps, etc.
Be involved – Gaming with or sitting next to your child as they watch give insight to what they experience online.
Watch – Look for signs your child might have too much screen time like not sleeping as well, not being satisfied without technology, getting upset when they can't have access
Aim for balance – Each child has different needs. Do what is best for your home-life.

Feel Good Friday

Each Friday, we will feature an inspiring, deserving Keheley staff member. The goal of this effort is simple: to recognize the hard work and dedication of our amazing staff! How are staff members selected? The past week's recipient nominates and recognizes the new week's recipient by writing them a special note in our Keheley journal and passing the marquee K along!
