Course Description: This course will involve students performing skipping, sliding, and galloping with a mature form while moving through personal and general space; students will demonstrate the ability to change directions on teacher command or adapt movement in relation to a partner and combine non-locomotor movements with manipulative and locomotor patterns in a variety of games and dances. Students will demonstrate the ability to: maintain momentary body control during balance and weight transfer; master underhand throwing patterns when performing manipulative skills; catch an object at a medium level of trajectory in a closed environment (not during game play); and use underhand striking skills.

The physically educated student has developmentally appropriate grade-level comprehension and application of the concepts and principles of fitness, motor skills, movement patterns, tactics, and strategies which contribute to a physically literate and active lifestyle.

Standard PE2.4 (a-d) and Standard PE2.5 (a-e) Should be addressed and interwoven throughout the year in as many skills and concepts in order to stress the importance of personal and social behavior, rules, safety and etiquette.
