

# Overview of the System & Management Cobb Teaching & Learning System

- Provides a “biopsy” approach to student assessment that allows teachers to gauge student performance and adjust accordingly (formative assessment) as opposed to a traditional “autopsy” approach, which assesses progress near the end of the school year.
- Allows teachers to deliver differentiated and more immediate instruction based on frequent student assessment monitoring. Provides immediate feedback and data to assist teachers in driving classroom instruction.
- Gives parents access to on-demand resources so they can support their student at home.
- CCSD is a pioneer in development and implementation of this formative approach to education and is receiving national recognition for its design and theory.
- CTLS was implemented in FY2017 with the Assess module. Student, teacher and parent modules have been phased in since FY2017 and have been instrumental in delivering on-line instruction during the COVID-19 pandemic and stay-at-home orders.

# Overview of the System & Management Cobb Teaching & Learning System

Cobb Schools was well positioned to handle the current COVID-19 outbreak. The Cobb Teaching & Learning System (CTLs) was developed in-house as one of the most technically advanced learning systems in the academic world. This system provides Cobb the ideal delivery of instruction in K-12 education.

**The Cobb Teaching and Learning System is a digital learning environment which precisely identifies what students know, supports student learning, engages parents, and empowers teachers with one goal: student success.**
