

CCSD Wireless Directions: Chromebook

The following are directions for connecting your **PERSONAL** Chromebook device to the CCSD Secured Wireless Network. You must complete **all three sections** and **follow all steps** for the Internet to work properly: Connect to Wireless, OnBoarding Verification, and Certificate Download.

Connect to Wireless

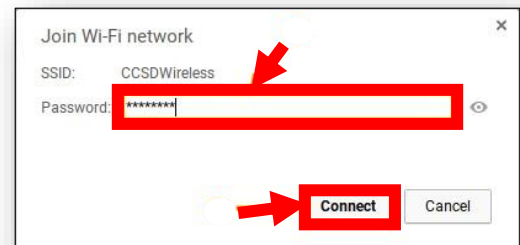

1. Go to your WiFi settings and select the **CCSDWireless** network.

2. You will need to enter the **Password** provided by your local school's Library Media Specialist, Lab Manager, School Administrator, or TTIS.

3. Click **Connect**.

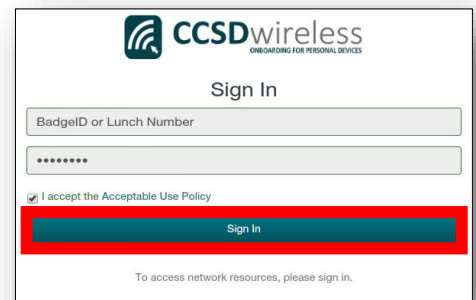

4. Open a web browser and navigate to <http://info.cobbk12.org>.

OnBoarding Verification

5. Sign in to CCSDWireless using your **badge ID** (for staff) or **lunch number** (for students) and **Network Password**.

Note: Network password is the same password used to access any school computer. Remember to check the Acceptable Use Policy after reading the terms.

Certificate Download

- 6. You will be redirected to the SSL Certificate Page. Click the **gold key** to install the SSL Certificate.

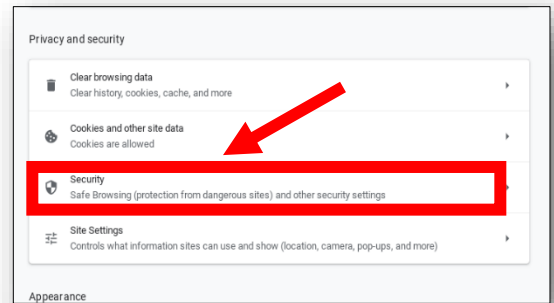

Note: If you are not redirected to the SSL page, open the web browser and go to cert.cobbk12.org.

- 7. Open a new tab in the browser and enter **chrome://settings**.

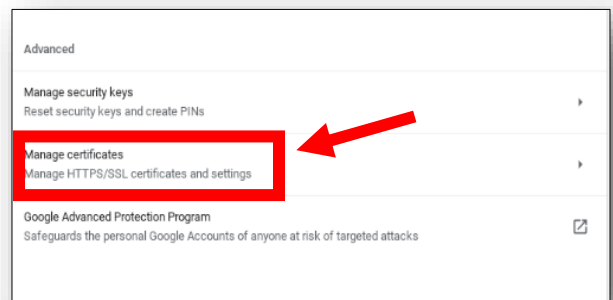

- 8. Scroll down to Privacy and Security. Click **Security**.

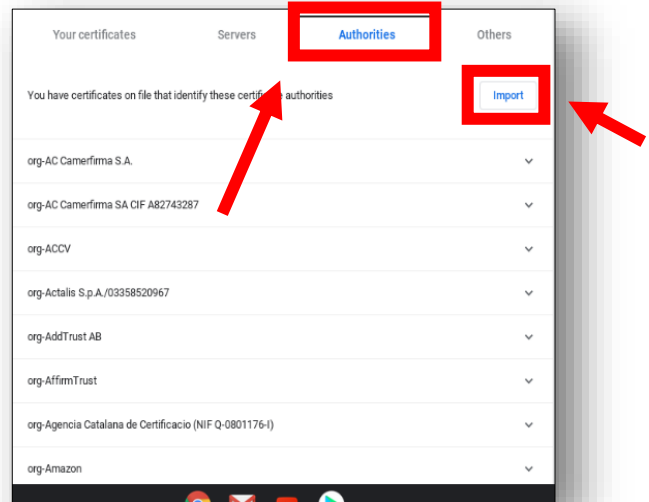

- 9. Scroll down until you see the **Advanced** section.

- 10. Click **Manage certificates**.

11. Select the **Authorities** tab.

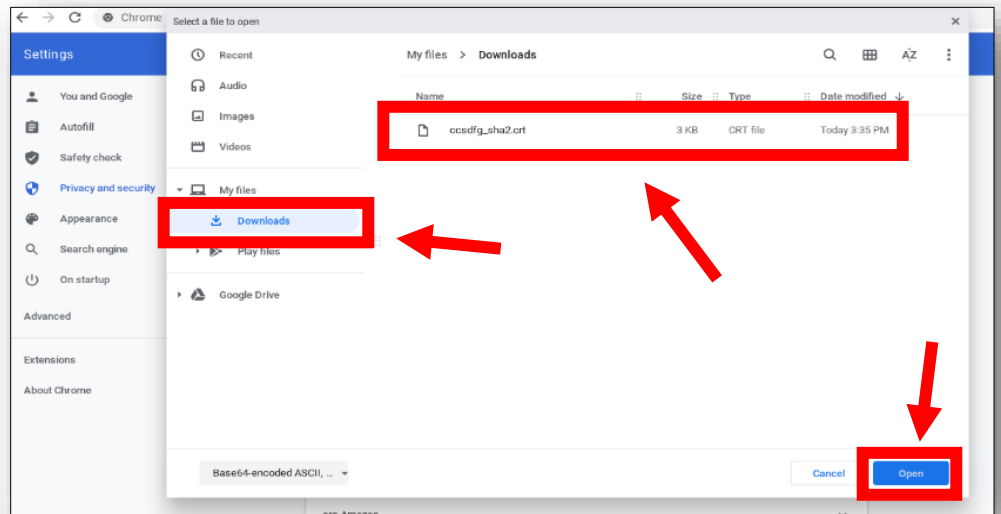

12. Click **Import**.

13. Go to the **Downloads** folder.

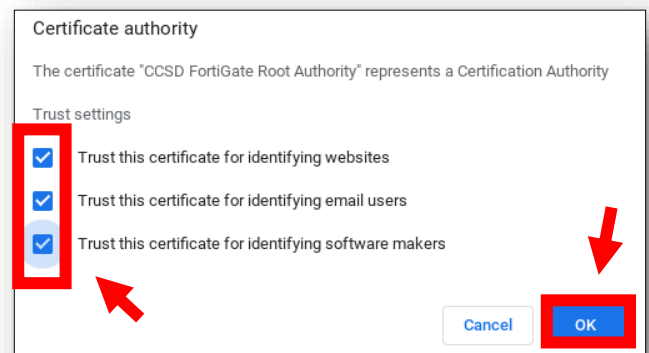

14. Select the file named **ccsdfg_sha2.crt**.

15. Click **Open**.

16. Check all **three boxes** under the Trust settings.

17. Click **OK**.

18. Navigate to a secure HTTPS site like www.yahoo.com, www.google.com or www.bing.com and verify the page displays properly.

*Note: If website pages are not loading correctly, ensure the **Use secure DNS** setting is **on** and set to **With your current service provider** in the Privacy and security section of Settings in Chrome.*
