

CCSD Wireless Directions: iOS 12.0 or Earlier

The following are directions for connecting your **PERSONAL** iOS device running version 12.0 or earlier (iPhone, iPad, iPod) to the CCSD Secured Wireless Network. You must complete **all three sections** and **follow all steps** for the Internet to work properly: Connect to Wireless, OnBoarding Verification, and Certificate Download.

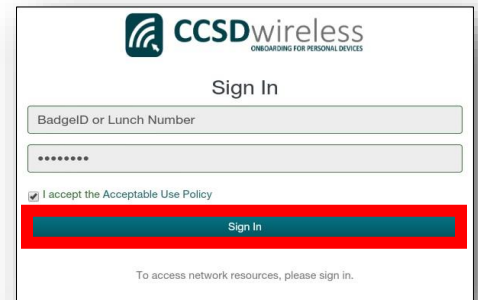

Connect to Wireless

1. Go to your WiFi settings and select the **CCSDWireless** network.
2. You will need to enter the **Password** provided by your local school's Library Media Specialist, Lab Manager, School Administrator, or TTIS. Press **Join**.
3. Open the **Safari** web browser and navigate to login.cobbk12.org.

OnBoarding Verification

4. Sign in to CCSDWireless using your **badge ID** (for staff) or **lunch number** (for students) and **Network Password**.
Note: Network password is the same password used to access any school computer. Remember to check the Acceptable Use Policy after reading the terms.

Certificate Download

- 5. You will be redirected to the SSL Certificate Page. Click on the **gold key** to install the SSL Certificate.

Note: If you do not get redirected to the SSL Page, open a web browser, and go to cert.cobbk12.org.

- 6. When the popup window opens, select **Allow**.

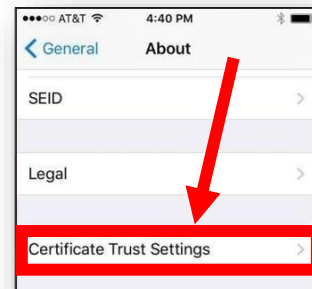

- 7. Select **Close**.

- 8. For iOS version 10.2 and newer, you will need to update the Certificate Trust Settings. From your device's Home screen, select the **Settings** icon.

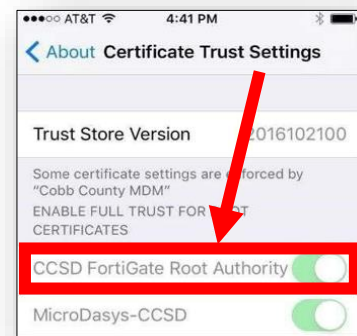

- 9. From the Settings menu, select **General**.

- 10. Select **About**.

- 11. Scroll down to **Certificate Trust Settings**.

- 12. Turn on the **CCSD FortiGate Root Authority**.

- 13. Select **Continue**.

- 14. Navigate to a secure HTTPS site like www.yahoo.com, www.google.com or www.bing.com. Verify that the page displays properly.
