1	<b>Low Fire Red</b>												
	Red-terracotta body that is very versatile, a good choice for the classroom. No grog. Firing temperature from Cone 06 to Cone 5. At Cone 5 turns a dark red brick color.	\$0.43	\$21.50	\$0.46	\$22.90	\$0.26	\$13.00	\$0.34	\$17.00	\$0.36	\$17.75		
2	<b>Mid Fire Red (Mid-Range)</b>												
	Firing temperature of Cone 3 to 6. Rich reddish brown body with lots of character, warmth and excellent working properties. Can be used for hand building or throwing. Bisque to Cone 04. Glazes well at Cones 4-8.	\$0.43	\$21.50	\$0.52	\$25.92	\$0.26	\$13.00	\$0.42	\$21.00	\$0.38	\$18.75		
3	<b>Low Fire White</b>												
	Stark white, light clay body, which accepts color well. Developed especially for Low-Fire Cone 06-03. It has a very strong body with plasticity to avoid crackling and drying out too quickly. No grog.	\$0.43	\$21.50	\$0.44	\$21.76	\$0.26	\$13.00	\$0.34	\$17.00	\$0.38	\$18.75		
4	<b>Mid Fire White (Mid-Range)</b>												
	Porcelain-like clay, very smooth, takes glazes extremely well. No grog. Mid-Range Cones 5-6.	\$0.43	\$21.50	\$0.46	\$22.89	\$0.26	\$13.00	\$0.42	\$21.00	\$0.39	\$19.50		
5	<b>Raku</b>												
	Designed for extreme thermal shock. Bisques very white, blackens nicely in raku reduction firing. It is fairly smooth textured with a tough plastic body. Works well low fire or high fire. Good glaze adhesion and contains kyanite for shock.	\$0.43	\$21.50	\$0.52	\$25.92	\$0.26	\$13.00	\$0.42	\$21.00	\$0.41	\$20.25
