World Language Characters in All Editors

Purpose:

All text editors now include the option to add Chinese, Japanese, or Korean characters along with the already available Latin, Greek, and Cyrillic characters.

Overview:

1. From any text editor anywhere in CTLS, click the More Rich, then Special Characters option.
2. Choose a character to add from one of the following options:
   a. Latin (including Spanish, French, Portuguese)
   b. Greek
   c. Cyrillic
   d. Japanese
   e. Chinese
   f. Korean
