ParentVUE Attendance

Starting Thursday, 11/12, the attendance module in ParentVUE was activated for all schools. Parents who have set up automatic email notification for attendance have begun to receive these email notifications. The system reviews attendance entries hourly and sends out notification emails based on the settings in each ParentVUE account.

ParentVue Attendance Detail

In ParentVUE, absences entered while all students were engaged in remote learning will look slightly different than absences recorded since face-to-face learning has resumed. Absences recorded prior to November 5 will be indicated only in period 20, CTLS Attendance. Beginning on November 5, absences are recorded for every class period for both face-to-face and remote learners.

If you have a student who is **F2F** and they show up remotely they will be coded as **AVP**. This will show the parents and others that the student was not in the building but did log onto CTLS. It does not make it excused but we can see what is happening better with the students.

AVP(*Absent – Virtually Present – Unverified*) AVP code lets the teacher and parent know that the student participated in the lesson remotely. AVP absences are considered unexcused until the parent/guardian supplies appropriate documentation to the PPO Clerk.

VPE(*Virtually Present – Absent Excused*) changes AVP absence to an excused absence once documentation has been received.

VPQ (*Virtually Present – Quarantined*) changes AVP absences, these are not weighted and do not add to the total number of absences for the student. Please remember these codes are changed after the teacher takes attendance and the PPO clerk gets verification, might take a day or two for changes to show in ParentVue.
