Emergent Readers

These happy readers need enjoyable experiences with books, especially picture books. They are able to work with concepts of print and are at the beginning stages of developing the ability to focus attention on letter-sound relationships. Rereading books, extending stories, connecting experiences to both print and pictures are great strategies for emergent readers.

Reading

- Ask questions about important details in the text (who, what, where, why and how)
- Invite your child to ask questions and predict
- Encourage your child to clap and count the syllables in their names & in a variety of multiple-syllable words
- Invite your child to put words together and pull them apart (A-dri-an-na)
- Show your child the cover of a book and read the title. Ask them to predict what they think the story will be about based on the cover illustrations.

Writing

- Ask your child to retell a story in words and/or pictures
- Ask your child questions so s/he can add details to his/her writing or drawing
- Engage your child in a family journal, where you and our child write about events, experiences, thoughts, and opinions.
- Invite your child to write messages, grocery lists, letters, notes, and other household texts.
