Cost Evaluation Formula: (Lowest Price/R-where "R" represents the cost of proposal currently being ranked) x Points = Score. The cost score was based upon the first year cost only.

The non-cost components of proposals (total of items 1 – 4) can receive a maximum of 700 points out of 1000 points possible. Proposers must score 490 points or more (70% of total non-cost score) on non-cost components to be considered in the competitive range. Cost will be scored only for those proposals in the competitive range.
