ENGLISH

9th Literature	<p>This course provides additional time and practice for the skills described in the 9th Literature and Composition standards. Students can receive feedback and guidance from their teacher to develop further their reading, writing, and language skills.</p>
Honors 9th Literature	<p>This course is designed to help Honors 9th Literature students maintain this demanding and fast-paced class workload. Students will receive assistance with the projects assigned in their classes. Students can receive feedback and guidance from their teacher to develop further their reading, writing, and language skills.</p>
World Literature	<p>Along with remediation as needed, students will have the opportunity to receive help on assignments, ask questions about class concepts, and spend extra time staying caught up on their work. Special Education students who have accommodations for an extended time will benefit from this additional time to work in a “small group” environment.</p>
Honors World Literature	<p>This course addresses the 10th grade ELA standards and provides students with additional practice opportunities for class assignments. Students will develop the skills to craft EOC-style constructed responses, have exposure to EOC-style and PSAT-style multiple-choice questions, and receive feedback and guidance from their teacher on class assignments.</p>
American Lit	<p>Along with remediation as needed, students will have the opportunity to receive help on assignments, ask questions about class concepts, and spend extra time staying caught up on their work. This course addresses the 11th grade ELA standards and provides students with additional practice opportunities for the EOC.</p>
Honors American Literature	<p>This course addresses the 11th grade ELA standards and provides students with additional practice opportunities for class assignments. Students will develop the skills to craft EOC-style constructed responses, have exposure to EOC-style and PSAT-style multiple-choice questions, and receive feedback and guidance from their teacher on class assignments.</p>
British Literature	<p>Along with remediation as needed, this course will focus on writing workshops and college/scholarship essays. Students who need additional help or time on assignments will greatly benefit from this additional time to work in this “small group” environment.</p>
Honors British Literature	<p>This course addresses the 12th grade ELA standards and provides students with additional practice opportunities for class assignments.</p>
Dramatic Writing for Film & Television/Creative Writing	<p>Students in any level of Dramatic Writing for Film & Television will benefit from extra time to work on class assignments as well as enrichment opportunities to explore additional examples of television and film scripts. Students will enjoy building characters, settings, and complex plots while exploring various genres.</p>
AP Language/ American Lit	<p>Need extra help or extra time to work on AP Language or Honors American Literature? Students will have the opportunity for individual help. They can work at their own pace or seek help from the teacher to stay on top of the workload.</p>

AP Literature	AP Literature students are strongly encouraged to use this opportunity for individual help. They can work at their own pace or seek help from the teacher to stay on top of the workload.
Writing Center	The Writing Center is designed to give Harrison High School students the opportunity to request help in cross-curricular writing tasks. Students who sign up for the Writing Center are high-achieving and talented writers who desire to earn service hours for tutoring struggling students with their writing assignments. Students who join this Hoya Block will also receive first-hand information about Harrison High School's new and upcoming National English Honors Society.
Advanced Film as Literature	This course is designed for gifted students who wish to explore film as a medium of modern storytelling. Students learn about the history of the film industry and critical analysis of films from various cultures, genres, and time periods. Students will complete a self-directed independent study of a director or screenwriter and work on a production of a student film project.
Book Chat	Studies have proven that the fastest way to increase your vocabulary and your reading comprehension is to...READ! Whether you are just beginning your reading journey or you live separate lives inside the pages of the books you read, this Hoya Block is for you. Get together with a group of like-minded readers to share your favorite books and authors, chat about your favorite books, and participate in Harrison community outreach activities designed to get fellow students to join the world of books. Let's talk ... about BOOKS!

MATH

Geometry	Students will review concepts from Geometry. This Hoya Block course is designed for students to get the practice necessary for success on the End of Course Test.
AP Calculus AB/BC	Students will review concepts from class and work on extra practice problems and prepare for the AP Calculus exam in May.
Algebra II	Students will review concepts from Algebra II. This Hoya Block course is designed for students to get extra practice on concepts learned in the course.
Honors Algebra II	Students will review concepts from Honors Algebra II. This Hoya Block course is designed for students to get extra practice on concepts learned in the course.
Algebra I	Students will review concepts in Algebra I. This Hoya Block course is designed to reinforce what students are learning in class and provide extra practice to help students prepare for the EOC.
Honors Calculus	Students will review concepts from Honors Calculus. This Hoya Block course is designed for students to get extra practice on concepts learned in class.
Honors Geometry	Students will review Geometry concepts covered in Honors Geometry. This Hoya Block course is designed for students to get the practice necessary for success on the End of Course Test. We will use online resources such as USA Test Prep, Delta Math, and Khan Academy when possible.
Pre-calculus	Students will review concepts from Precalculus. This Hoya Block course is designed for students to get extra practice on concepts learned in the course.
Accelerated Pre-Calculus	Students will review concepts from Accelerated Pre-Calculus. This Hoya Block course is designed for students to get extra practice on concepts learned in class.
SAT/ ACT Math Prep	Students will learn testing strategies and review math problems to prepare for the SAT and/or ACT. Students should be planning to take the SAT or ACT during the fall semester.

Est. 1991

HARRISON

SOCIAL STUDIES

AP United States History	Throughout the semester, students who sign up for the APUSH Hoya Block sessions will have an opportunity to review various parts of the APUSH Exam (multiple-choice, short answer, and essay questions). The review will include the use of the College Board website, Barron's AP U.S. History Review (4 th Edition – Updated for the 2019 Exam), and other resources from the APUSH Reading. Students will use Hoya Block to prepare for scheduled DBQ/LEQ writing assessments and tests at various points in the semester.
AP World History	Students will review the six historical periods designated by the College Board. Reviewing the historical content for AP World History is an integral step in preparing for the AP exam in May.
AP Psychology	The course will prepare students who have enrolled in the AP Psychology course to perform well on the College Board AP Psychology Exam. Not only will we review course content, we will investigate various research studies in-depth, work on FRQ development geared at psychological terminology, and take AP practice exams in preparation for the May test.
Honors US History	A cumulative review of all U.S. History material to better prepare students for the state-mandated End of Course assessment. The review will include supplementary materials, overviews/reviews of topics, review games, USA Test Prep, etc.
US History	A cumulative review of all U.S. History material to better prepare students for the state-mandated End of Course assessment. The review will include supplementary materials, overviews/reviews of topics, review games, USA Test Prep, etc. Students will also receive instruction in test-taking strategies and techniques. Tuesday will be self-directed student work, and Thursday will be EOC review.
World History	World history review will go over topics from world history class in case you need a refresher or something to be retaught. You can get caught up on missing assignments or get extra help with organization and note-taking.
Honors World History	Honors World history review will go over topics from world history class in case you need a refresher or something to be retaught. You can get caught up on missing assignments or get extra help with organization and note-taking.
AP Human Geography	This course will help to prepare students for the AP Human Geography exam given in May. Students will review key concepts, gain test-taking strategies, and practice multiple choice and FRQs. Students will also receive additional help and support for their current class.
Economics/ Government	Students will prepare for Economics in this course by reviewing key course concepts and getting extra practice through USA Test Prep and more.
Honors Economics/ Government	Students will prepare for the Economics reviewing key course concepts and by getting extra practice through USA Test Prep and more in this course.
AP Government/ AP Economics	In this course, students will review for the AP Government and AP Economics Exams. Students will attend government one day each week and economics the other. Students wishing to take the AP Macroeconomics exam and the AP Microeconomics exam will receive preparation for that as well.
World Geography Review and Extension	Students will work on their map skills in a way that will allow them to read maps better. This will help the students in both their geography classes and everyday life, like reading road signs. Students will also learn about different regions of the world and all the geographic factors that make that region unique and exciting to learn.
Current Issues Review	Students will receive extra help and extension of what they learn in class. They can also catch up on assignments.
AP European History Review	The course will prepare students for the AP European History exam in May. Students will review content and practice the different types of essays they need to write on the exam.

SCIENCE

AP Chemistry	AP chemistry is an accelerated course where students will earn Advanced Placement Chemistry credit. This course is designed to be the equivalent of a college introductory chemistry course. Content covered will encompass the foundational knowledge of chemistry outlined in the Georgia Standards of Excellence and the AP curriculum outlined by the College Board. This course will provide students with the conceptual framework, factual knowledge, and analytical skills needed to deal with the rapidly changing science of chemistry. *only current enrolled students*
Chemistry	This HOYA block will give students an opportunity to reinforce and practice concepts from the honors chemistry class. Particular emphasis will be placed on the practice of mathematical concepts that are part of the content of honors chemistry. Guided practice along with feedback will help ensure that students master concepts. Students in this HOYA block will not be able to work on assignments for other classes. This HOYA block is limited to students with averages BELOW 80 to accommodate the students who most need the help.
AP Physics	This HOYA Block course is for students in AP physics who need extra time for discussing, practicing, re-learning, questioning, and just getting used to thinking about physics.
Honors Physics	This HOYA Block course is for students who register for this course will be expected to participate in activities designed to help students with the concepts and multi-step word problems found in the honors physics class. Students will not be allowed to work on other assignments for other courses. Students who have an average of 85 or greater are not encouraged to take this course.
Physics	Students who register for this course will be expected to participate in activities designed to help students with the concepts found in the on-level physics class. Students will also practice one and two-step physics problems and better analyze physics word problems. Students who have an average of 85 or greater are not encouraged to take this course.
AP Biology	This HOYA Block course is for students in AP Biology who need extra time for discussing, practicing, re-learning, questioning, and reviewing for the upcoming AP exam in May.
Honors Biology	Students who register for this course will be expected to participate in activities designed to help students understand biology content and related vocab words. Students will not be able to work on assignments for other courses. Students who have an average of 85 or greater are not encouraged to take this course.
Biology	This course is designed to help students master higher-level concepts in Biology by using different audio, visual and kinesthetic strategies to understand the information in Biology. In each class session students will use various techniques to review and enrich Biology concepts being taught in the unit. These various techniques will create models, explain models, practice problems, and learn how to construct explanations, design solutions, and communicate information effectively in Biology.
AP Environmental Science	This HOYA Block course is for students in AP Environmental Science who need extra time for discussing, practicing, re-learning, questioning, and just getting used to thinking about AP Environmental Science.
STEM	STEM students will be given time and support to work on their Science Fair projects during Hoya Block.

WORLD LANGUAGE

<p>Spanish I and Honors Spanish II</p>	<p>This course will provide students currently enrolled in Spanish II and Honors Spanish II with additional practice on the grammar structures, verb conjugations, and vocabulary words covered in this semester’s class. Spanish II and Honors Spanish II builds upon the knowledge of Spanish I; therefore, this course is designed to reinforce the fundamental skills of the Spanish language we presently cover in class. Learning Spanish requires exposure to large amounts of the new language and getting comfortable communicating in the language. As in the classroom, during Hoya Block, you will be asked to make every attempt to communicate. By doing so, you will develop your listening, speaking, reading & writing skills at a much faster pace.</p>
<p>Spanish II</p>	<p>Spanish II builds upon the knowledge of Spanish I; therefore, this course is designed to reinforce the fundamental skills of the Spanish language we presently cover in class. Learning Spanish requires exposure to large amounts of the new language and getting comfortable communicating in the language. As in the classroom, during Hoya Block, you will be asked to make every attempt to communicate. By doing so, you will develop your listening, speaking, reading & writing skills at a much faster pace.</p>
<p>Honors Spanish III/ Honors Spanish IV</p>	<p>This course is for students currently enrolled in Honors Spanish III or Honors Spanish IV. Students will work to review vocabulary and grammar concepts that are being covered in class. Students will have the chance to practice these concepts through listening, speaking, reading & writing activities.</p>
<p>AP Spanish</p>	<p>This course is designed for students currently taking AP Spanish Language and Culture. Students will prepare for the AP exam.</p>
<p>Spanish Lab</p>	<p>The Spanish Lab is designed to give Harrison High School students the opportunity to request help in their Spanish courses. Students who sign up for the Spanish Lab are high-achieving and talented Spanish students (Spanish V and AP) who desire to help their community by tutoring struggling students with their Spanish assignments.</p>
<p>French</p>	<p>This course is designed for students who are currently registered in a French course. Students will review the fundamentals of the three modes of language: interpretation, presentation, and interpersonal exchange.</p>

FINE ARTS

<p>Audition Prep</p>	<p>This Hoya Block is designed for vocal musicians to have additional practice and instruction on music preparation for college auditions, GMEA All-State Chorus, the Governor’s Honors Program, and Cobb County Honor Choirs.</p>
-----------------------------	--

HOYA Band	This class is open to all students currently enrolled in a band class or percussion class. This class will give students the opportunity to receive additional assistance as they prepare for honor band, all-state, and university auditions. In this class, students will learn about the preparation for auditions and how the audition process works. The class will provide students with helpful information as they prepare for and go through the audition process for honors groups and/or college schools of music.
Open Studio	This class is open to students who are currently enrolled in an art class. It will give the students the opportunity to receive additional assistance as they work to complete art assignments.
Design/Tech Theatre	This Hoya Block is designed for students who are current members of the Technical Crew for a One Act, Advanced Drama, or Musical Theatre production. It will give students an opportunity to extend their design and technical execution of the production, meet with the Director and Stage Management, and collaborate within production teams.
Scene Study	This Hoya Block is open to all current Theatre students and/or members of the International Thespian Society. This class will give students the opportunity to receive additional assistance as they prepare for Harrison Theatre, community theatre, and college auditions, Governor's Honors Program, Literary Competition, and ThesCon Individual Events and scholarship auditions. Students will have the opportunity to explore and prepare scenes and monologues, perform and receive critiques, refine their theatrical resumes and portfolios, and receive other assistance as they move through the audition process.
Hoya Orchestra	This class is open to all students currently enrolled in an orchestra class. This class will give students the opportunity to receive additional assistance as they prepare for honor orchestras, All-State, and college auditions. In this class, students will learn about the preparation for auditions and how the audition process works. The class will provide students with helpful information as they prepare for and go through the audition process for honor groups and/or college schools of music. In addition, students will also have the opportunity to form small chamber ensembles in order to prepare for performances at the local, district, and state level.

HEALTH/PE

Est. 1991

Give Back to Adaptive PE	Students will research each of the disabilities that others must overcome and apply research findings to practical hands-on training.
Khan Academy	Using individualized data from the PSAT to encourage, motivate, monitor student progress to help students gain the confidence to help improve their future PSAT & SAT scores.
SAT Review	Students will learn testing strategies and work on SAT problems to prepare for the SAT. Students should be planning to take the SAT during the fall semester.
Senior Support	The Harrison High Senior Support (HHSS) program aims to provide all students with the resources they need to excel inside and outside of the classroom. Senior support is an academic time during our Hoya Block designed to improve students' academic performance throughout the academic year. It is a time for study and homework completion. During senior support, students work independently, in small groups, or work with the instructor. All students participating in senior support must commit to improving their academic performance. It is open to all seniors.

CTAE

<p>Sports Medicine</p>	<p>This course is designed to prepare students for the EOPA in the Physical Medicine Pathway. Students wishing to register for this class must have completed or be currently enrolled in Sports Medicine. This course is especially geared towards students that wish to retake the EOPA in May due to a previous failure. Prerequisite: Sports Medicine</p>
<p>Microsoft Certification</p>	<p>Students can earn a Microsoft Specialist, Expert, or Master Certification in Word, Excel, or PowerPoint. Use computer software and lessons that guide you step by step to creating real-world professional documents and then use that knowledge to sit for the Microsoft Exam given during the last week of Hoya Block. Prerequisite: You must be a previous or current business student to take this Hoya Block.</p>
<p>HHS Sports Information Data</p>	<p>The Sports Information Department is in charge of all aspects of sports publicity, history, and statistics for Harrison High School’s Athletic Department. Other responsibilities include overseeing the athletics department’s publications, partnering with the school’s website and social media pages, and coordinating activities for home athletics contests. Also, the SID specialists accumulate and maintain data for all Harrison sporting events, past and present. The SID students also assist Hoya Nation Sports producers with all game day and weekly show prep and broadcasts. Prerequisite: Students must be approved for this class. Additionally, they must have completed all 3 Sports and Entertainment pathway classes.</p>
<p>Early Childhood Education</p>	<p>Students will review concepts taught in ECE 1 and ECE2 in preparation for the NOCTI End of Pathway Assessment. Concepts Covered: Health and Safety; Cognitive Development; Language Development and Communication; Physical Development; Social and Emotional Development; Community and Family Relationships; Observation, Documentation, and Assessment; Professionalism Classroom Organization and Arrangement; Creativity; Diversity of the Classroom; Inclusion of Children with Special Needs; Positive Guidance Techniques and Reinforcement. Prerequisite: Current practicum interns (ECE3) who have not taken the End of Pathway Exam.</p>
<p>Adobe Illustrator Prep</p>	<p>This course will be comprised of two distinct sections: Nine weeks of Adobe Illustrator practice & techniques and nine weeks of test prep for the Adobe Certification Exam. Prerequisite: Must be currently in Level 2 of the Graphic Design Pathway or have previously completed and passed it.</p>
<p>Graphic Design</p>	<p>This course reviews graphic design techniques used in today’s digital world while addressing multiple problem-solving components through real-world applications. Students will utilize their graphic design skills learned and apply them to a set of common application situations that occur in today’s graphic design industry. Must be currently in Level 1 – Intro to Graphic Design or have completed Intro to Graphic Design and continuing the Graphic Design Pathway.</p>
<p>Financial Technology</p>	<p>This course explores what new financial technologies are emerging and how technological advances in data analytics are enabling innovation in the financial industry. Students will examine new services and business models in various areas of banking, insurance, and financial asset management. Students will not only understand the concepts but will apply their knowledge to situations and defend their actions, decisions, and choices through the knowledge and skills acquired in this course. Students wishing to register for this class must be currently enrolled in Introduction to Financial Technology, Financial Technologies and Services, or Coding for FinTech.</p>

<p>Sports and Entertainment Marketing</p>	<p>This course explores the major segments of the Sports and Entertainment Industry and the social and economic impact the industry has on the local, state, national, and global economies. Students will examine the products and services offered to consumers and the impact of marketing on these products and services are examined. Students will have the opportunity to develop managerial and analytical skills and deepen their knowledge in sports/entertainment marketing. Students wishing to register for this class must be currently enrolled in Marketing Principles, Introduction to Sports and Entertainment Marketing, or Advanced Sports and Entertainment Marketing.</p>
<p>SkillsUSA Workshop</p>	<p>This course provides opportunities for AVTF students to practice the skills and review elements for the AVTF – End of Pathway SkillsUSA and NOCTI tests. Members will be encouraged to compete in the SkillsUSA video competitions in the early spring.</p>
<p>Future Teachers</p>	<p>Becoming a teacher requires deep compassion and immense patience. This class will provide students the chance to work with teachers within the classroom here at Harrison. The students will have a chance to look at becoming a special education teacher by working with great teachers on staff.</p>
