Speak Screen and Reading View on iPad

These directions will show how to have text read aloud, which removes distractions for users while reading on an iPad. This feature is known as “Speak Screen” and “Reading View.”

Turn on Speak Screen

1. Go to Settings.
2. Select Accessibility.
3. Select Spoken Content.
4. Turn on Speak Selection, Speak Screen, and Highlight Content.

Turn on Reading View

1. Open a website in Safari. Tap the Reader Button.
2. Select Show Reader View to remove distracting content.
Speak Highlighted Text

1. Highlight any text by pressing and holding. Then select **Speak**.
   
   *Note: The text will be read aloud with each word highlighted as it is read.*

Speak All Text

1. Use two fingers to swipe down from the top of the screen and activate **Playback Controls**.

2. Press the **Play button** to have all text read aloud.
