<i>AP Comp Sci</i>	» Mrs. Linner Before school and by appointment

Hints if you're struggling in your math class:

- 1) Ask more questions during class and do **all** your homework.
- 2) Take good notes – write down **everything** your teacher places on your screen.
- 3) Take advantage of online resources such as provided materials or Khan Academy or www.mathispower4u.com.
- 4) Form a Study Group with students in your math course – they don't have to be in your same period.
- 5) See your teacher or other math teachers for extra help.
- 7) Don't wait until the morning of a test or quiz to start getting help – plan ahead!

If **all the above isn't enough, consider hiring a math tutor to address specific weaknesses.*
