

## PRINCIPAL'S MESSAGE

Dear Harrison Families,

I hope everyone had a safe and restful September break. It's hard to believe that we are now about halfway through first semester. This is a good time for students to reflect on their current performance in their courses and look ahead for the second half of the semester. We want to make sure students are on track and working to achieve their academic goals. Please remind your students that all departments have posted tutorial times for extra help. This information is listed on our school website under "Academics." You will need to visit each department's page for tutorial times. Please encourage your student to communicate with his or her teachers for questions or concerns about course work. Also, our entire counseling team is always available for our Hoyas and are great resources for support. Please let us know how we can help your student!

Besides academic success, the safety of our Hoyas is our highest priority, which means that much of what we do every day revolves around ensuring that our campus is a safe place for students and staff. In order to make sure everyone is prepared, we conduct a variety of school-wide safety drills regularly. These drills include fire, tornado, and several different shelter-in-place scenarios. Due to safety protocols and based on recommendations from public safety personnel, with a focus on keeping your students as safe as possible, we do not announce drills in advance and do not send after-action communication. We evaluate our procedures regularly with our local school officer to ensure the best safety procedures and practices are in place.

Also, morning announcements are often made reminding students about good decision making and the importance of school safety. School safety is a collective responsibility where everyone plays a role in reporting things that jeopardize the safety of another student, faculty/staff member, or our campus. The most important safety feature that we have at Harrison, and the one that we rely on the most often, is the relationships we build with students and families. It is not uncommon for students to come to us with information that allows us to be pro-active in keeping all our students and staff safe.

What can you do to help? Please keep talking to your students about making good decisions at school and in social settings. Please make sure that your students are using social media safely and practicing positive digital citizenship. Finally, encourage your student to practice the "see something, say something" ethic. No concern is too small. We are very proud of our students and appreciate the way they continue to positively represent Harrison. We are not anticipating any problems, but as always, we want to clearly communicate the importance of school safety.

---

Thank you for your continued support as we all work towards our vision of Helping Our Youth Achieve Success.

Sincerely,  
Ashlynn Campbell  
Principal
