

Paying with Quick Pay

Once registered for an account, the Enrolling Adult may allow anyone to make a payment on their Eleyo account by using the **Quick Pay** button. *Quick Pay* is a feature that allows people to make a payment on the parent side without being an owner of a particular Child Care Account. The payer does need to create their own profile and login credentials for the Eleyo website.

Having a login and using **Quick Pay** does *not* give the person access to the account. Using **Quick Pay** will *only* allow access to make payments. Any details about the amount that needs to be paid or the invoice balance due should be provided by the account owner (Enrolling Adult).

To use Quick Pay, the person making the payment will need the following:

- Personal login credentials to the district website
- Child Care Account Number
- Student's Last Name

For security reasons, if the payer does not have the required information, it is recommended they contact the account owner/enrolling adult to obtain it.

The steps below outline the process for the *payer*:

Step #1:

- On your computer, open an internet browser
- In the browser, enter the URL: <https://cobbk12.ce.eleyo.com>
- From here, scroll down and click on “**Quick Pay**”
