Fall 2022- Scheduling FAQ

When will schedules be released? Schedules will be available in ParentVue and StudentVue on July 28.

*Note- If your students' schedule is incomplete, the scheduling team will be working through the weekend. Our first priority is to ensure each student has a full schedule.

What should I do if I would like a different placement for my student? Unfortunately, we are not able to change electives unless the student does not meet the pre-requisite for that elective. We do our best to honor students' choices; however, that may not always happen if the number of requests is greater than the number of seats available. If you have a Core Class Schedule request, please scan the QR Code or use the Link below.

*Note-Teachers will be reviewing transcripts to ensure that students are placed in the correct courses. **NO request should be made by email, only submitted on the form using QR Code OR the Link.** The form will close on Friday August 5th.
