Purpose:
You can now customize the homepage for each of your classes. Choose which widgets to show, and change the size and placement of each. Teachers can still update the student view for all students.

Navigation | Student View
1. Login to the CTLS Student Portal.
2. Click My Classes on the left navigation and choose a class to enter.
3. From the Digital Classroom homepage you can choose which widgets to show or hide by clicking the double checkmark. Widgets with the green check and circle are visible, greyed out widgets are not. Clicking the round arrow will reset to the default layout.
4. Click the title of a widget to drag and drop it into place
5. Click the double arrow on the bottom-right corner of a widget to resize it.

Please note: Your teacher can change the layout which will reset what your page looks like. They can also lock homepage customization.
